Middle Primary Year Head's Message

As the school year draws to a close, I am pleased to share with you that your child has shown resilience in overcoming the challenges they faced and exercising teamwork and care for their peers.

Do take this holiday break to bond with your child and give them enough time to recharge their energy to meet the next school year with enthusiasm.

Mr Sean Lim

Every Springdalite a **secure individual,**
a **leader of self-worth** and a **significant citizen**

Children's Day

On 5 October, we celebrated Children's Day with a concert. Kudos to all the talented teachers who put up their performances for the Springdalites and it ended with joyful and beautiful memories for all.

Our teacher emcees not only surprised everyone as they came in the school uniforms, but also amazed the audience with their eloquent and humorous conversations.

Performances by our talented teachers

Deepavali Celebrations

Deepavali celebrations started with recess activities on the first two days of Week 9 in Term 4. Springdalites were very involved with colouring 'Kolams' and making bookmarks out of 'Mandalas'.

Springdalites enjoyed colouring their Kolams

Our senior Springdalites taught the younger ones how to make bookmarks using Mandala drawings

The much-awaited Deepavali celebration took place on 10 November. It started with an exciting 'walk in dance' called 'Poi Kal Kuthirai', followed by a peacock dance and a fusion performance. It was a 'folk dance' themed show.

P6 Student Emcees, Saadhana and Dheepanraj hosted the show

Springdalites took part in a quiz on 'Deepavali' too!

SEN Awareness Week

Writing own name in Braille

The SEN Awareness campaign is carried out in October this year with the focus on People with Disability. During recess, students visit booths to learn about and experience the challenges people with physical disability, visual disability and hearing impairment may have in their daily life.

Students also get to experience the various tools that people with disability used for communication such as sign language, braille and a wheelchair.

Buttoning up a shirt with only one hand

Search for things without looking

Form alphabets with my finger

This is what it's like to be on a wheelchair

Town Hall Meeting

The Town Hall Meeting is a platform for the Student Leader Council (SLC) to engage with the student body. During the session, our council shared ideas and suggestions collected from the school population and listened to the voices of our fellow Springdalites, to seek ways to collaboratively enhance our school environment. The student leaders believe that together, everyone can make the school a better place.

Q&A session

Springdalites Makers Festival

Springdalites Makers Festival this year focuses on **Innovation**, **Robotics** and **Makers Education** and are infused with creativity and craftsmanship.

Students enjoyed an interesting lineup of Makers activities such as building their own Strawbees structures, designing their holiday planner, using 3D pens, building marble run structures, learning how to code with Makey Makey and VEX Robotics competition.

On top of these activities, students also get to view the prototypes and presentations from Springdalites who took part in local competitions, including a Hackathon. Students also had a go with LEGO spike and coding. These activities had ignited the joy of learning and encouraged students to explore beyond their comfort zones.

Using the steps given to create their own favourite animal

Eager to make their own creation

Using Strawbees to make into a long snake

VEX Robotics Challenge – One Minute to Win It: Springdalites had to grab as many cubes as they can in 1 minute!

Creating holiday planner

Science Buskers Final Round

Two teams from our school were shortlisted for the Science Buskers Final Round which took place at Sengkang Grand Mall on 28 and 29 October, competing with 21 other teams from other primary schools. The Singapore Science Buskers competition organised by Science Centre Singapore hopes to develop each individual's communication skills through expressions of science in a creative manner as well as promote the learning of science in a fun and engaging way. Participants will present and do a show-and-tell on any science topic.

Our Science Buskers performed live to the public during the Final Round at Sengkang Grand Mall

Our Springdalites worked hard to prepare for the Final Round and had performed commendably throughout the two days by busking live to both judges and public to garner votes. We would like to thank all of you who came with your family to give your support and votes!

11th National Primary Schools Photography Competition

Five of our Springdalites from Media Club CCA participated in the 11th National Primary Schools Photography Competition organised by Fuhua Primary School. The theme of the competition is ‘Building a City of Green Possibilities Together’. The objectives of the competition are to raise our students’ awareness to Singapore Green Plan 2030 on sustainable development and to provide a platform for our students to practise eco-stewardship through the medium of photography.

Our Springdalites performed commendably for the competition. The photos from three of them were shortlisted for the People’s Choice Award in the Open Category and one of them, P6 Nuha Maisarah eventually won the People’s Choice Award after getting the greatest number of votes. We would like to thank all parents who had given your support and votes. Rizq Nabil Putera from P6 also won the Merit Award in the Open Category. They received trophies, Popular vouchers and books as part of their prizes. Well done to our Springdalites for their achievements!

The winners receiving their prizes and certificates

Eye Spy Math Poster Competition 2023

The Eye Spy Math Poster Competition was held for the first time in our school this year. It was organized to create awareness in our students to look out for familiar things and to see that Mathematics is around them. Students learn to make connections across 'big ideas' that they learn during their lessons and develop a profound understanding of Mathematics.

The competition was open to all levels and many of our Springdalites participated in it. The Top 3 poster designs from each level were presented to the school on 18 August 2023. Congratulations to our winners!

Eye Spy Maths Poster Competition Winners

16th Annual Mathlympics 2023

22 Springdalites took part in the 16th Annual Mathlympics. The competition aims to arouse students' interest in mathematical problem solving and includes topics such as Arithmetic, Geometry and Algebra. During the competition, students had to complete multiple open-ended questions within a 2-hour time frame.

We achieved 1 Silver Medal and 4 Bronze Medals. Congratulations to all our winners and participants who put in tremendous effort to prepare for this competition.

NSG Floorball Competition

In a thrilling journey spanning from 11 July to 24 August, our school floorball team participated in the National School Games (NSG) Junior Boys floorball competition. Securing second place in the Classification Round, they earned a spot in Tier 1 of the Tiered Round, the highest level of competition.

The Junior Boys team with parent supporters at the National School Games

Throughout the tournament, our boys demonstrated dedication, resilience and teamwork. Their performance in the Tiered Round showcased their ability to rise to the occasion and compete against formidable opponents, making their journey not just about victories but also about personal growth and sportsmanship.

Congratulations to our talented athletes for making our school proud!

NSG Badminton

Springdale Primary School took part in this year National School Games (NSG) and our Junior Team managed to clinch some medals for the various Tier Groups.

Tier 1 Doubles Boys	Champion – Alex Loh, P5 Ratan Raj, P4
Tier 1 Singles Boys	Achievement Badge – Lin Zhongtan, P4
Tier 1 Doubles Girls	Achievement – Vivian Lai, P5 Badge Felice Tay, P4 (in replacement of Clarissa See, P4)
Tier 2 Singles Girls	Champion – Ng Qi Ting, P5 Champion – Oh Jing Yu Kylin, P5
Tier 2 Doubles Girls	Achievement – Pulavarthi Shreya, P5 Badge Lashimitha, P5
Tier 4 Doubles Boys	Champion – Justin Lim, P5 Jayden Chu, P5

Springdale Parent Volunteer Club

We are pleased to share with you some of the bonding activities organised by our parent volunteers in Semester 2. We would like to thank our Springdale Parent Volunteer Club (SPVC) for their continued support and partnership in this journey.

With the new SPVC EXCO Team and more PVs coming onboard, there will be more opportunities to support the school through recess activities/events and chaperones for learning journeys. If you would like to join the SPVC, please go to :

<https://form.gov.sg/64088533d87c3d00114b1a2e>

SPVC celebrated National Day by making paper windmill and played games together. They had lots of fun chatting and doing crafts together.

Some SPVC members celebrated Deepavali through participating in the peacock craft and drawing of rangoli session. Our PVs enjoyed the bonding time which allowed them to know more about Indian culture.

Springdale Parent Volunteer Club

Teachers' Day Celebrations & SPVC's 1st Telematch

SPVC's 1st Telematch

SPVC had our first ever telematch during the June holidays. Our main aim is not only to bond with the parents but also to have fun together.

SPVC's 1st Telematch

Kids were having fun playing the games that we set for them. We ended the session with McD lunch where we had our chit chats together.

Springdale Parent Volunteer Club

SPVC organised a game carnival for students during Children's Day celebration. The kids had fun playing the games and collecting points to exchange for gifts during their recess time.

Benefits

TRAVEL HELPS YOUR BRAIN FUNCTION BETTER AND BOOSTS CREATIVITY

"Foreign experiences increase cognitive flexibility and depth and integrativeness of thought," says Adam Galinsky, a professor and author of numerous studies on the connection between creativity and international travel.

PICKING UP A NEW HOBBY, EXERCISING AND READING A BOOK

These activities can be really beneficial for our mental health and have shown to give us lower stress, better physical health, more sleep, more social connections, improved work performance, and increased happiness.

FAMILY GATHERING

Being with family and doing activities together also provides an outlet for pent-up emotions that could otherwise lead to unhealthy decisions. Family is so important when it comes to a child (or teenager) bringing problems to you, because your advice can allow them to become better equipped to cope with problems and make positive choices.

DOING CHARITY

Giving can stimulate your brain's mesolimbic pathway, or reward center, while releasing endorphins. That can lead to a "helper's high" that boosts self-esteem, elevates happiness and combats feelings of depression.

Mathlete Games Week

The Mathlete Games Week was organized from 24 to 28 July for our P3 students. It aims to provide them the opportunity to experience the affordances of Mathlete and to find joy of learning through game play.

Our P3 Springdalites had a fun and engaging session using the Mathlete@SDPS application, with meaningful games and fun quizzes embedded in it. We hope this will enthuse and empower our students to learn at their own pace, thus strengthening their understanding and retention of Math concepts.

All SDPS students can access the Mathlete@SDPS application from the comfort of their homes by visiting <https://mathlete.glideapp.io/> or by scanning the above QR code.

Springdalites attempting the interactive games in Mathlete

Lower Primary Games Carnival

The school organised a Games Carnival as part of Children's Day celebration for P1 to P3 students. Students had a fun time and at the same time, put into practice the fundamental motor skills that they have learnt during PE lessons. Through the games, students had the opportunity to appreciate and respect each other's strengths and weaknesses and to also put aside individual differences to achieve a common goal.

Our Springdalites enjoying the Games Carnival during Children's Day
